## Gesa Drechsler of Buttjebeyy

This week we would like to introduce the indie dyer Gesa Drechsler of Buttjebeyy who specialises in using natural dyes. Following first attempts with Easter egg colours, which ended in a minor catastrophe, Frau Drechsler now works exclusively with natural dyes. Everything from rhubarb root to logwood to coffee goes into the dye pot.

Find out more about this in our interview with Frau Drechsler:  
English subtitles are available in the settings

For some time now, Buttjebeyy has been using RAW yarns by LANGYARNS for dyeing. Exclusively for you, Frau Drechsler has not only designed the triangular shawl "Five Wisdoms" , but also dyed the yarns to knit it with. You can find the free knitting pattern on our blog, the yarns are available by clicking on the following link: [Buttjebeyy](#).

Are you a hand dyer yourself? Would you like to know more about the yarns we have to offer for hand-dyeing? You can find information about our RAW yarns on our website under "RAW by LANGYARNS".

Have a wonderful weekend,  
Best wishes, Your LANGYARNS Team
